For City Matters and Telegraph es Third Page. FROM OUR NEW YORK CORRESPONDENT.

NEW YORK, May 9. This day, as we hear, the Nebraska iniquity a to be revived and forced through the House by the aid of purchased Northern votes. Such voter, as John Randelph, with too true, but insolent confidence, said on a former occasion "are always to be had"—and, I may add, always will be had, so long as the people are deluded by party appeals and the corrupt appliances of Caucus neminations into the support for Congress of more party hacks and tools; demagogues of mouthing professions and rotten principles. But if this fraud be successful, and if the bill become a law, I trust there will be, through the Free States, but one cry, Repeal, Repeal, Repeal; and when repeal is carried, as it cannot fail to be, if the Free States be but true to themselves--if Free Labor will only assert its own rights and dignity-then let us go on to an amendment of the Constitution, stripping the Slave of his representative quality; and since the Slave holding States will not recognise him as a man, for his own ben efit, but only that they may exercise more political power through that fiction of law, as they treat it over the freemen of the Union, let us carry out their doctrine that he is only property

and as such not cattled to be represented. This I verily believe would do more for the ultimate overthrow of Slavery than any other expedient; for it is because of the political power and predominance which by reason of the unity of action produced among them by the common bond of Slavery-of more power than all other bonds-and of the direct representation of slaves, more than from any calculation of profit, or even convenience, that Slavery is clong to with such tenacity and propagated with such systematic energy and audacity by the Slave States. If these States, aided by Northern and Westerr traiters, will respect no compromises, neither can we be called upon to adhere to them; and there fore let us agitate, agitate, agitate, until the pro vision of the Constitution, counting five Slaves a equal to three Freemen, be abolished.

There is the more reason for this, in as muc as the equivalent stipulated to be paid by the Slave States for this privilege never has been paid for when that privilege was conceded, it was assumed that the expenses of the Federal Goverament would be borne by direct taxation and that the taxes should be levied on the basis of Representation; so that if slaves sent members t Congress, they would also be counted in the ratio of taxation. This equivalent has failed—the expenses of the Government have been defrayed from the customs-and of these the Free States with their white Free Labor, well-housed, wellfed, and well-educated, pay a much larger prof portion than the Slave States.

Hence we not only concede an excess of Morabers of Congress to Slavery, but we take upon outserves the burden of paying the taxes which The Deficiency bill and seventeen others were laid aside, one by one, the re-opening of the Palace. We copy the most cases, take, of the Free States, by the pusillaniunity and venality of men salient portion. The Nebraska Bill.

The probability seems to be that, by the various appliances of Executive power; by threats of removal from and promises of appointment to of fice of Members of Congress and their relative and friends, a sufficient majority has been pledged to pass the edious Nebraska bill in the House of Representatives. The struggle, as briefly reported by telegraph to us, has been sharp and prolonged, those who remain faithful making noble stand, though we fear a useless one.

The whole Northern people, and the whole northern press, save a few pensioned organs and partizen office-holders, are against the bill. The Southern people do not want it, and many of of their presses and a few noble representatives on the floor of Congress, have opposed it; and Jet a Northern Executive and a Northern wouldbe Executive, are determined to press it through Be it so.

If in their mad career of subserviency to the marc-power and recreancy to Freedom they are determined to bring on the struggle among the people, let that struggle come! The first bill on the Calendar was read by its title, making appropriations for civil and diplomatic expenses of dovernment.

Mr. Richardson moved that it be laid aside.

Mr. Houston suggested that there be but one vote on laying aside all the bills preceding the Nobraska bill, and let it be a test.

Mr. Whoeler called for the reading of the bill.

Mr. Haven insisted, as the debate was heretofore terminated on the Deficiency bill, the duty of the Committee now was to execute the order of the House, and act on the smeadments thereto.

The Chairman overruled the point, and, on appeal, he was sustained by the Committee—Ayes 100; Noca 80.

The Deficiency bill and seventeen others were ed, evidently much to the joy of its friends, who gave expression to their feelings by spontaneous applause, which the Chairman endeavoired to suppress. During the confusion. Mr. Wash-burne, of Maine, moved the bill be laid assite, and

this produced laughter.
The Chairman again interfered to rectore order ken up.
Mr. Hughes objected.
Mr. Cambell said he watted to get the Simon
Pure bill.

Mr. Ruchardson said he proposed to offer a sub-etitute for the bill.

"Stand back," "Come up this way," exclaimed exertal members. "We want to hear you." He was interrupted by gentlemen who, in overy di-rection, were calling for copies of the Senate bill."

The pages hurried to the stand near the Clerk's: desk, and getting full supplies, distributed them briskly all over the Hall. Mr. Richardson, this part of the business being over, resumed, saying he did not intend to go into a discussion at this time, only so far as to explain the character of his substitute. There were many arguments orged by the enemies of the measure, to which he should like to reply, but he would not consume time. The desired the he would not consume time. He desired the friends of the bill to be heard, and when they are

There are other amendments reserved. ly verbal, not affecting the general principle. The was all he had to say. Mr. Hibbard said that while he preferred the

substitute of the gentleman from Illicois, he would vote for the Senate bill. It seemed to be manifest that there is an urgent necessity for an organization of some kind to be extended over the territories. This fact was not seriously nor extensively controverted. He proceeded to show that the effect of the bill would not be to legislate that the effect of the bill would not be to legislate elevery into the territories, and advocated it on the ground of non-intervention, and because it was pared on the principle of the compromise measures of 1850. Its passage may be procrastinated, but it cannot be defeated. He had every confidence in its ultimate success.

Mr. Lyon said: The outside structure of this measure is for the territorial organization of Nebraska and Kanzas, but it contains an apple of discord which, like the fruit of the Dead Sen, is tempting to the eyes, but ashes on the lips. Byits passage, you break the solemn faith that the
nation has pledged to the lone Indians of the
West. By it, you obliterate the American entente.
cordials of thirty year's validity. By its agintion,
you weaken and destroy the fraternal brotherhood
and kind relations that now exist between the
States, and ventionly excite the prainting. and kind relations that now exist between the States, and wantonly excite the prejudice and passion of the North, and embitter the sectional feeling of the South, though the principle of self-government which needed no new affirmation, and which all freemen acknowledge, is set forth as the very corner-stone of the measure. Yet the history of the Nebraska bill shows that it was an ingenious afterthought of its distinguished originator. Like the Sphynx of Egypt, it bears a face of wondrous beauty, with the loathsome holy of pects of an abundance of fruit the coming season. From central Illinois and Indiana, we learn that a similar result is feared.—Mineral PointTribure.

more reasonable terms. The stupendous consequences to the Christian world of this fact he left for gentlemen to consider, who do not believe that Slavery is the conservator of morals, civilization, or religion. In conclusion, he said he would abrogate the great work of the fathers of our medieval existence—enter to descerate the sacred precincts where good faith and honor and peace dwell together—disguised though he be in antiered genius and swiftest wit, he must beware of the fate of that Acteon, who, lost to decency, entered the vestal's wood, and was torn in pieces by his own hounds. He who would bend the bamyantree of Liberty must beware of the rebound. Under the sunshine of genial compromises, it has shot forth thirtyone vigorous columns, whose interlacing boughs shield, in green glory, a peaceful resting place for the weary and troubled of all the nations of the earth. He who would battle with Liberty herself, must remember that she is no "phantom of delight, no "timid gaddess," as enstamped upon our coin, but a colossal woman, armed as Pallas was when she sprung forth gigantic from the brain-of-Jove, beneath the shadow of whose sandals even kille giants are lost in obscurity. To the City Authorities.—The Milwaukee: Sent, nel states that the Badger State, which cleared for this port on Saturday, shipped a new Captain for the trip, Alderman Humphrey, of the Fifth Ward. The "regular" Captain, Hugh Shorts, has had a very severe attack of pleurisy, from which he is recovering, though still unable to walk the quarter deck. Meanwhile Captain. Humphrey, laying aside his Aldermanic robes, takes the Badger State to Buffalo. We suggest that the Common Council turn out and give the Alderman-Captain a public reception. His generosity and vorsatility deserve to be recognized in some extraordinary manner. Probably the Badger State will arrive on Saturday. steamer Sierra Nevada left same day for San Juan. On the 22d, at 9 A. M., saw a stip in Manzan-illa Bay. Same day, at 5 P. M., arrived off the harbor of Acapulco; saw two vessels, showing what appeared to be French colors, laying off the main entrance, each of which fired a gun as the Sephens approached through the north channel, and soon atterwards fred a shot which fell short and soon afterwards ared a shot which fell short of us. The engine was immediately stopped, and the helin put to starboard. The ship fore-reached, came in full view of the fort, which appeared to be crowded with men. The steamer then looing her steerage way, and crifting towards the rocks on the north shorn of the bay, the engine was started ahead to bring her round head to wind and tide, when the ship and shooner coming up under our lee in point blank range, fired two shots close over us. The engine was again stopped, a boat lowered, and the first officer sent to inquire the cause of their firing into us. He was not allowed to board the ship, but wus met by an officer in the ship's boat, who informed him that the

Semi Mouthly Report.

We have to report a more favorable state of affairs bere than at the date of our hast advices of the 1st iostant. Business has to some extent revived. Prices on many of the leading articles have slightly advanced.

Immediately after the sailing of the last steamer considerable activity was perceptible in all description of provisons, and large lats changed handgla an advance upon previous quotations.—Most of these lots, were however, taken by speculators. The demand, notwithstanding, was fair, which has since enabled holders to minutain the advance then assumer. We may quote sales of Mess Beef at \$1822. The prices of clear Pork range from \$252626 for bits, and \$14a15 for half bits. In Mess we note sales of about 100 bits at \$222624 for bits, and \$13a73 6234 for bits. at \$22a24 for bbls, and \$13a7A 62½ for bis. Lard has partaken of the general activity with provisions. We note sales of about 300 kegs at 14a16s; a fair quotations at the closes, would be 15½s; in case. Lard; some 900 pkgs Au. have been taken at 15½sales, the latter figure marking been taken at 15 kal5c, the latter ngure marking a choice article in time.

Since our last review the market for flour has presented few features of interest, and may perhaps be noted at present as not exhibiting quite so great a degree of firmness as then characterized it. The demand for either city or country nocounts has been very moderate, and with this less active enquiry there have been consequently more profess to esil.—We quote Chili at \$9 per 200 lbs; Haxall & Gallego at \$13, other brands sweet \$850a\$10 per bbl. Best California Mills at \$1150.
